

Theater Construction Project

Assignment: Create a three-dimensional replica of an ancient Greco-Roman theatre.

Purpose: Learn about the architectural design of the ancient Greco-Roman theatres which inspired the later Globe Theater and many theatres today.

Project Requirements:

- Imitate the appearance of an ancient theatre (as opposed to a modern one)
- Contain the following architectural items:
 - Skene
 - Orchestra
 - Parados
 - Theatros
- Presentation
 - Give a presentation on theater to the third grade or seventh grade class.

Project Schedule:

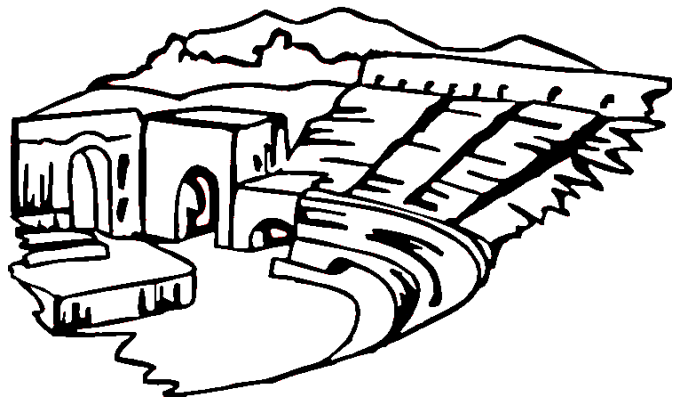

The final project will be due on December 7. Presentation dates will follow (TBA).

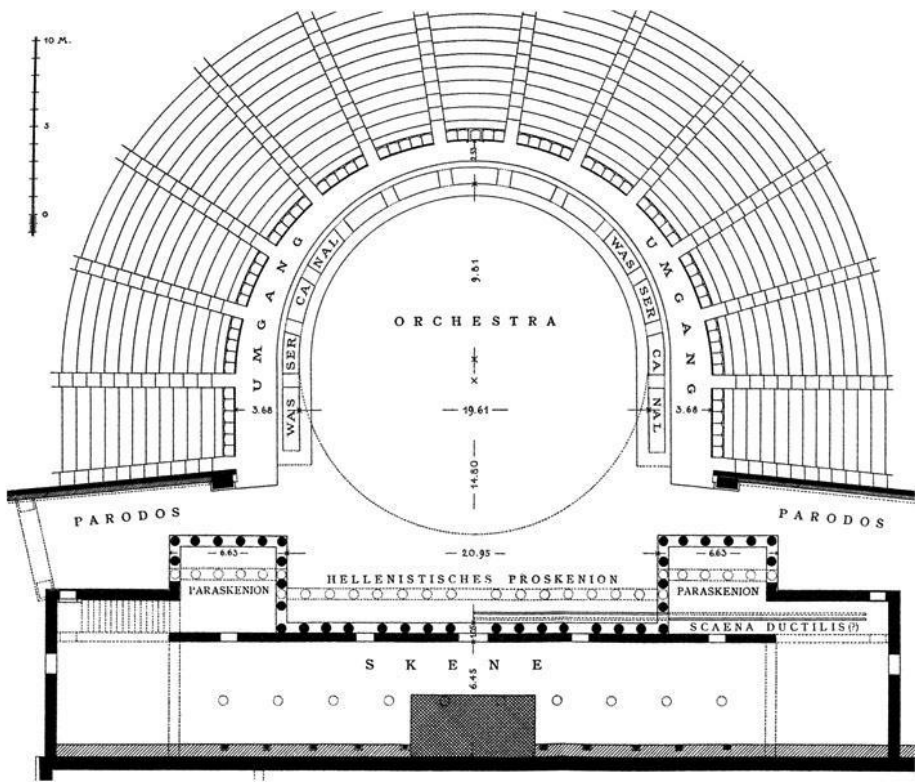

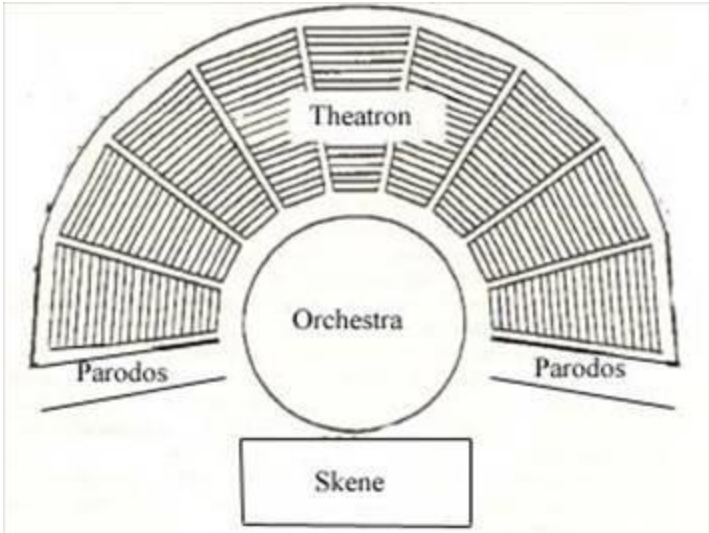

Each Friday will be a project work day complete with project checks.

- November 9 – Put together a project plan including design, materials, and group member responsibilities.
- November 16 – Materials acquired, framework begun
- November 30 – Framework finished, aesthetic details begun
- December 7 – final due date
